** There may be a delay between the current Growth Cap Rates being declared on each Segment Start Date and the MSO II Growth Cap Rates shown in the illustration systems, if applicable. The illustration system is generally updated with any new rates on or around the first business day of each month.

*** The current declared Growth Cap Rates will not change during the Segment at the start of which they were declared. Future declared Growth Cap Rates may be higher or lower than past declared Growth Cap Rates, but the declared Growth Cap Rate for any Indexed Option will never be less than its corresponding guaranteed minimum Growth Cap Rate. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -10% downside protection buffer is 5.00%. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -15% downside protection buffer, the Step Up Indexed Option and the Dual Direction Indexed Option is 4.50%. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -20% downside protection buffer is 4.25%.

Variable life insurance is sold by prospectus only. The prospectuses and supplement(s) include more complete information about the policy, including risks, charges, expenses, investment objectives and investment options. You should carefully read the prospectus, the Market Stabilizer Option® II supplement and any other supplements. Consider the information carefully before investing or sending money.

S&P 500® Price Return Index — Includes 500 leading companies in leading industries of the U.S. economy, capturing approximately 80% coverage of U.S. equities. The S&P 500® Price Return Index does not include dividends declared by any of the companies included in this index. Larger, more established companies may not be able to attain potentially higher growth rates of smaller companies, especially during extended periods of economic expansion.
